## Room Care R2-plus Pur-Eco

Hard surface cleaner — concentrate

**Weakly alkaline****All hard surfaces****Colour-coded**

non-abrasive

water-resistant

bottle & dispenser

Room Care R2-plus Pur-Eco is a concentrated, weakly alkaline cleaner for all water-resistant hard surfaces — walls, doors, fittings and general surfaces. Non-abrasive and gentle enough for everyday use. It's dosed through the dedicated Room Care Divermite dispenser using the colour-coded R2 refill bottle.

### Before you start

- Mild in use — but still wear gloves when handling the concentrate.
- Only use with the Room Care Divermite dispenser and the matching R2 (green) bottle — never with another dosing system.
- For professional/trade use only.
- Full safety information is in the product's Safety Data Sheet — ask us if you need a copy.

## How to use it

The Room Care dispenser doses the concentrate straight into the colour-coded bottle — no measuring needed.

### ● Spray cleaning

- 1 Take the empty R2 (green) bottle, remove the spray head, and fill with cold water to the marked line (300ml).
- 2 Place the bottle in the Room Care Divermite dispenser and press the button once to dose the concentrate (≈5% solution).
- 3 Screw the spray head back on and shake gently to mix.
- 4 Spray onto small areas and wipe with a cloth, brush or mop.
- 5 Rinse food-contact surfaces with clean water and leave to air dry.

### ● Bucket cleaning

- 1 Fill a 5L bucket with water.
- 2 Dose **1-2 doses (15-30ml)** of concentrate into the bucket.
- 3 Clean larger areas with a mop or cloth.
- 4 Rinse and leave to air dry.
