Room Care R3-plus Pur-Eco

Glass & multi-surface cleaner — concentrate

Near-neutral**Fast-drying****Colour-coded**

streak-free spray & wipe bottle & dispenser

Room Care R3-plus Pur-Eco is a concentrated, near-neutral glass and multi-surface cleaner. It's very effective at removing fingerprints and greasy marks, dries fast and leaves no streaks. It's dosed through the dedicated Room Care Divermite dispenser using the colour-coded R3 refill bottle.

Before you start

- Near-neutral pH — mild in use, but still wear gloves when handling the concentrate.
- Not for use on water-sensitive surfaces such as untreated wood.
- Only use with the Room Care Divermite dispenser and the matching R3 (blue) bottle — never with another dosing system.
- For professional/trade use only.
- Full safety information is in the product's Safety Data Sheet — ask us if you need a copy.

How to use it

The Room Care dispenser doses the concentrate straight into the colour-coded bottle — no measuring needed.

● Spray & wipe

- 1 Take the empty R3 (blue) bottle, remove the spray head, and fill with cold water to the marked line (750ml).
- 2 Place the bottle in the Room Care Divermite dispenser and press the button once to dose the concentrate (≈2% solution).
- 3 Screw the spray head back on and shake gently to mix.
- 4 Spray a small amount onto the surface and wipe clean with a cloth.
- 5 No rinsing needed — it dries fast without streaks.

Product details

Format	Divermite Room Care concentrate, blue colour-coded
Appearance	Clear, blue liquid
pH (neat)	≈ 6.7
pH (in use)	> 6

Surface compatibility: glass, mirrors and other water-resistant hard surfaces. Not for water-sensitive surfaces such as untreated wood.
