Room Care R5-plus

Non-aerosol air freshener — concentrate

O.N.T.

odour-neutralising technology

Fabric-safe

colourfast, washable fabrics

Colour-coded

bottle & dispenser

Room Care R5-plus is a concentrated, non-aerosol spray air freshener. It uses O.N.T. technology to neutralise bad odours rather than just masking them, leaving a light, fresh fragrance behind. It's safe on colourfast washable fabrics and furniture. It's dosed through the dedicated Room Care Divermite dispenser using the colour-coded R5 refill bottle.

Before you start

- For use on colourfast, washable fabrics and furniture only — spot-test anything you're unsure about first.
- Only use with the Room Care Divermite dispenser and the matching R5 bottle — never with another dosing system.
- For professional/trade use only.
- Full safety information is in the product's Safety Data Sheet — ask us if you need a copy.

How to use it

The Room Care dispenser doses the concentrate straight into the colour-coded bottle — no measuring needed.

● Refreshing a room

- 1 Take the empty R5 bottle, remove the spray head, and fill with water to the marked line (300ml).
- 2 Place the bottle in the Room Care Divermite dispenser and press the button once to dose the concentrate (≈5–10% solution).
- 3 Screw the spray head back on and shake gently to mix.
- 4 Spray lightly into the air, or onto fabrics and furnishings, to neutralise odours and freshen the space.
