SURE Cleaner Disinfectant

Plant-based 2-in-1 clean & disinfect — 2L

Plant-based 5 min 2-in-1

100% biodegradable contact time cleans & disinfects

SURE Cleaner Disinfectant is a concentrated, plant-based detergent-disinfectant that cleans and disinfects food premises surfaces in one step — worktops, chopping boards, equipment and utensils. It's effective in all water hardness and works well against bacteria, yeasts and viruses. Dosed through the Divermite (DvM) dispenser.

Before you start

- The concentrate is acidic ($\text{pH} \approx 2$) — wear gloves and eye protection when filling or handling the pouch.
- Once diluted to the in-use strength, no special protective equipment is needed for normal use.
- Give surfaces the full 5-minute contact time for the disinfectant to work properly.
- For professional/trade use only.
- Store the sealed pouch away from extremes of temperature.
- Full safety information is in the product's Safety Data Sheet — ask us if you need a copy.

How to use it

Choose the method for the job — spray for everyday wipe-downs, or a bucket mix for larger surfaces.

• Spray cleaning

- 1 Fill a 750ml spray bottle with water and dose **1 dose (12ml)** from the Divermite dispenser.
- 2 Remove any loose debris first.
- 3 Spray onto the surface and wipe with a damp cloth or brush.
- 4 Leave for **5 minutes** contact time.
- 5 Rinse with clean water and leave to air dry.

• Bucket cleaning

- 1 Fill a bucket half full (3.5L) with hand-warm water and dose **3 doses (3×12ml)** from the Divermite dispenser ($\approx 1\%$ solution).
- 2 Remove any loose debris first.
- 3 Apply the solution with a cloth or scrubbing brush.
- 4 Leave for **5 minutes** contact time.
- 5 Rinse with clean water and leave to air dry.

Product details

Format	Divermite (DvM) concentrate pouch
Appearance	Pale yellow liquid
pH (neat)	≈ 2
Contact time	5 minutes
Tested to	EN 1276, EN 13697, EN 14476

Surface compatibility: water-resistant surfaces commonly found in food premises.
