SURE Interior & Surface Cleaner

Plant-based all-purpose cleaner — 2L / 1.4L

Plant-based Aluminium-safe Fast-drying

100% biodegradable and other soft metals streak-free

SURE Interior & Surface Cleaner is a concentrated, plant-based all-purpose detergent for cleaning hard surfaces — floors, walls, doors, ceilings and general equipment. Unlike SURE Cleaner & Degreaser, it's safe on aluminium and other soft metals, so it's the one to reach for on those surfaces. We stock it in two formats — as a Divermite pouch, and as a SmartDose bottle — so check which dispenser you're using below.

Before you start

- Mild in use — but still wear gloves and eye protection when handling the concentrate.
- Safe for use on aluminium and other soft metals (brass, copper).
- For professional/trade use only.
- Store away from extremes of temperature.
- Full safety information is in the product's Safety Data Sheet — ask us if you need a copy.

How to use it

Two dispensing formats, same cleaner — use whichever matches the equipment on your wall.

● Divermite pouch (2L)

- 1 Spray bottle: fill 750ml with water and dose from the Divermite dispenser to give a **1% solution**.
- 2 Bucket: dose to give a **0.3-1.5% solution** depending on how soiled the area is.
- 3 Remove loose debris, apply the solution, and clean with a cloth, brush, mop or floor machine.
- 4 Rinse food-contact surfaces with clean water and leave to air dry.

● SmartDose bottle (1.4L)

- 1 Fill a 750ml spray bottle with water.
- 2 Turn the yellow head to the spray-bottle setting, pull it up fully, then press down to dose the concentrate into the bottle.
- 3 Shake the bottle gently before use.
- 4 Remove loose debris, spray onto the surface and wipe with a cloth.
- 5 Rinse food-contact surfaces with clean water and leave to air dry.

Product details

Formats	Divermite concentrate pouch (2L) / SmartDose bottle (1.4L)
Appearance	Colourless to pale yellow liquid
pH (neat)	≈ 5.5
pH (in use)	≈ 6.5

Surface compatibility: all water-resistant hard surfaces, including aluminium and other soft metals.
