Suma Silver D8

Silver detarnishing dip — 5L

Used neat**30-60 sec****No polishing**

no dilution soak time needed

Suma Silver D8 is a detarnishing dip for silver and silver-plated items — cutlery, serving dishes, table decorations and similar. A blend of acid, reducing agent and surfactant lifts tarnish, black spots and pitting without scratching or the need for polishing. Used neat, straight from the container.

Before you start

- Used neat — wear gloves and eye protection when handling it.
- **Only use in a plastic container** — the acid content can attack metal containers.
- Clear up any spillages promptly to prevent staining.
- For professional/trade use only.
- Full safety information is in the product's Safety Data Sheet — ask us if you need a copy.

How to use it

No dilution needed — just a plastic container and a quick dip.

● Detarnishing silverware

- 1 Fill a plastic container with Suma Silver D8.
- 2 Immerse the tarnished items in the neat product for **30-60 seconds**.
- 3 Rinse thoroughly with clean water and dry, or wash in a dishwasher using a detergent without bleach.
- 4 Replace the solution once it's exhausted.
