

Diversey TASKI · Concentrate with dosing pump

TASKI Sprint Anti Bac

Disinfectant cleaner — 5L

Cleans & disinfectsBroad spectrum

in one step

pH ~11

bacteria, fungi & enveloped virusesalkaline

TASKI Sprint Anti Bac is a concentrated cleaner and disinfectant for water-resistant surfaces. It removes typical washroom soiling — skin oils, soap, shampoo, toothpaste — while helping prevent limescale build-up, and is effective against bacteria, fungi and enveloped viruses including avian influenza. Dosed with a pump into a spray bottle or bucket.

Before you start

- Alkaline in use (pH ~11) — wear gloves and eye protection when handling the concentrate.
- Only for professional/trade use.
- Full safety information is in the product's Safety Data Sheet — ask us if you need a copy.

How to use it

Dose strength depends on what you're targeting — standard disinfection, or a lighter dose for virus inactivation.

•Spray bottle

- 1 Fill a 500ml spray bottle with water and add **7.5ml (1.5%)** of concentrate.
- 2 Spray onto the surface and wipe with a cloth.
- 3 Leave to work, then wipe or rinse as needed.

•Bucket — standard disinfection

- 1 Fill a bucket with 10L of cold water and add **40ml (4%)** of concentrate.
- 2 Apply with a mop or cloth.
- 3 Leave for the contact time before rinsing.

•Bucket — avian flu virus inactivation

- 1 Fill a bucket with 10L of cold water and add **10ml (1%)** of concentrate.
- 2 Apply with a mop or cloth.
- 3 Leave for the contact time before rinsing.

Product details

Format	Concentrate with dosing pump (5L)
Appearance	Clear, blue liquid
pH (neat)	≈ 11
pH (in use)	≈ 11

Suitable for: water-resistant surfaces in washroom and general areas.
