SURE Cleaner & Degreaser

Plant-based heavy-duty degreaser — 2L / SmartDose bottle

Plant-based **pH ~11** **Not for aluminium**

100% biodegradable alkaline in use copper or brass

SURE Cleaner & Degreaser is a concentrated, plant-based alkaline degreaser for heavily greasy kitchen equipment and surfaces — cooker hoods, cooker tops, worktops and tables. It's also strong enough for deep floor cleaning and stripping light wax build-up. It's part of Diversey's SURE range: 100% biodegradable, no fragrances or dyes. We stock it in two formats — as a Divermite pouch, and as a SmartDose bottle — so check which dispenser you're using below.

Before you start

- Alkaline in use (pH ~11) — wear gloves and eye protection when handling the concentrate.
- **Not suitable for aluminium, copper or brass** — use SURE Interior & Surface Cleaner instead on soft metals.
- For professional/trade use only.
- Store the sealed pouch away from extremes of temperature.
- Full safety information is in the product's Safety Data Sheet — ask us if you need a copy.

How to use it

Two dispensing formats, same degreaser — use whichever matches the equipment on your wall.

• Divermite pouch — spray cleaning

- 1 Fill a 750ml spray bottle with water and dose from the Divermite dispenser to give a **1.5% solution**.
- 2 Remove any loose debris first.
- 3 Spray onto the surface and wipe clean with a damp cloth.
- 4 Rinse food-contact surfaces with clean water and leave to air dry.

• Divermite pouch — bucket & floor cleaning

- 1 Fill a bucket with water and dose from the Divermite dispenser to give a **0.5% solution**.
- 2 For heavily soiled surfaces, apply the solution and leave it to work for a few minutes before scrubbing.
- 3 Clean with a mop, scrubbing pad or floor machine.
- 4 Rinse and leave to air dry.

• SmartDose bottle

SmartDose bottle

- 1 Fill a 750ml spray bottle with water.
- 2 Turn the yellow head to the spray-bottle setting, pull it up fully, then press down to dose the concentrate into the bottle.
- 3 Shake the bottle gently before use.
- 4 Remove any loose debris, spray onto the surface and wipe with a cloth.
- 5 Rinse food-contact surfaces with clean water and leave to air dry.

Product details

Formats	Divermite concentrate pouch (2L) / SmartDose bottle
Appearance	Colourless to pale yellow liquid
pH (neat)	> 11
pH (in use)	≈ 11

Surface compatibility: heavily soiled kitchen surfaces and water-resistant floors. Not suitable for aluminium, copper or brass.
