SURE Washroom Cleaner

Plant-based washroom cleaner — 1.4L

Plant-based

pH ~11

SmartDose

100% biodegradable alkaline, limescale-fighting bottle system

SURE Washroom Cleaner is a concentrated, plant-based alkaline cleaner for washrooms and other wet areas — effective on hard, water- and alkali-resistant surfaces. Regular use helps cut down limescale build-up. It's dosed through the SmartDose bottle system.

Before you start

- Alkaline in use (pH $\approx$ 11) — wear gloves and eye protection when handling the concentrate.
- For professional/trade use only.
- Store away from extremes of temperature.
- Full safety information is in the product's Safety Data Sheet — ask us if you need a copy.

How to use it

The SmartDose bottle doses itself as you fill it — no measuring needed.

• Spray cleaning

- 1 Fill a 750ml spray bottle with water.
- 2 Turn the yellow head to the spray-bottle setting, pull it up fully, then press down to dose the concentrate into the bottle ($\approx$ 1% solution).
- 3 Shake gently before use.
- 4 Remove any loose debris, spray onto the surface and clean with a microfibre cloth, sponge or brush.
- 5 For worktop or floor areas, follow with a mop or dryer blade as usual.

• Bucket cleaning

- 1 Fill a bucket with 5L of warm water.
- 2 Dose **2 doses (2 $\times$ 7.5ml)** of concentrate ($\approx$ 0.3% solution).
- 3 Clean surfaces with a wetted cleaning cloth, or a mop/dryer blade for worktops and floors.

Product details

Format

SmartDose bottle (1.4L)

pH (in use)

$\approx$ 11

Surface compatibility: hard surfaces in washrooms and wet areas that can tolerate water and alkaline cleaners.
