# Elbow Grease Cleaning Paste

Tough degreaser for sinks, ovens, grills & more

**Ready to use**

**Mildly abrasive**

**Versatile**

no dilution

tackles grime & limescale

metal, glass, tiles, engines

Elbow Grease Cleaning Paste is a versatile degreasing paste for tough jobs — sinks, cooker tops, baking trays, barbecues, ovens, tiles and outdoor furniture. It also lifts rust and limescale from metal surfaces. A little goes a long way.

### Before you start

- Mildly abrasive — test on an inconspicuous area first, especially on delicate or painted surfaces.
- Wear gloves for prolonged contact.

## How to use it

Ready to use — apply a small amount and work it in.

### General cleaning & degreasing

- 1 Apply a small amount of paste to a damp cloth or sponge.
- 2 Rub onto the surface, using extra pressure on stubborn areas.
- 3 Wipe clean with a damp cloth, then dry.
