Suma Multi Conc D2

All-purpose concentrated cleaner — 1.5L

pH ~11.2

Most surfaces

Divermite

neat concentrateexcept polished aluminiumdosing pouch

Suma Multi Conc D2 is a highly concentrated all-purpose cleaner for hard surfaces in food premises — floors, walls, doors, ceilings and general kitchen equipment. It cuts through grease and dried-on food and works in all water conditions. It's dosed through a Divermite or Diverflow dispenser, so you don't need to measure it out by hand.

Before you start

- The neat concentrate is alkaline — avoid direct contact with it, and wear gloves and eye protection when filling or handling the pouch.
- Once diluted through the dispenser, no special protective equipment is needed for normal use.
- For professional/trade use only.
- Not suitable for polished aluminium.
- Store the sealed pouch away from extremes of temperature.
- Full safety information is in the product's Safety Data Sheet — ask us if you need a copy.

How to use it

Choose the method for the job — spray for everyday wipe-downs, or a bucket mix for tables, floors and larger equipment.

● Spray cleaning

- 1 From the Divermite dispenser: fill a spray bottle with **1 dose of 5ml in 750ml of water** .
- 2 Spray the solution onto the surface and wipe clean with a damp cloth.
- 3 Rinse food-contact surfaces well with clean water and leave to air dry.

● General & floor cleaning

- 1 From the Divermite dispenser: fill a bucket with **2 doses in 5L of water** — adjust the dose upward for heavily soiled areas.
- 2 Apply the solution with a spray bottle, cloth, brush or mop.
- 3 Scrub to remove stubborn deposits.
- 4 Rinse with clean water and leave to air dry.

Product details

Format	Divermite / Diverflow concentrate pouch
Colour	Blue
Odour	Lightly perfumed
pH (neat)	≈ 11.2

Surface compatibility: suitable for most surfaces in food premises. Not suitable for polished aluminium.
